

Fluorine terminal for fitting with screw

**FN series** (10pcs/pack)

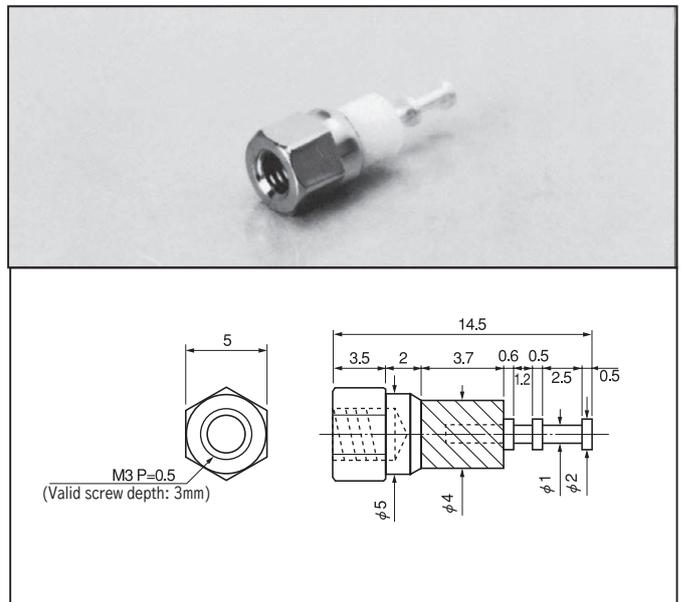

- This is used for fitting with a screw to a chassis, etc. via an electric wire and for fitting a part.
- The upper metal part and the lower metal part are electrically insulated with fluorine.
- Withstand voltage: 2000V AC, DC per minute
- Material Metal part: Brass  
Resin part: Fluorine (UL94V-0)
- Finish Upper part: Tin plating over nickel base  
Lower part: Nickel plating

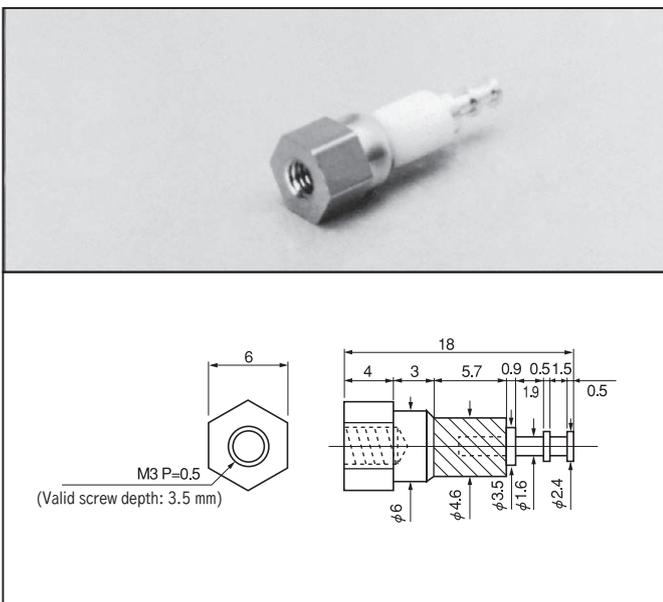

• Part No. : FN-1-0

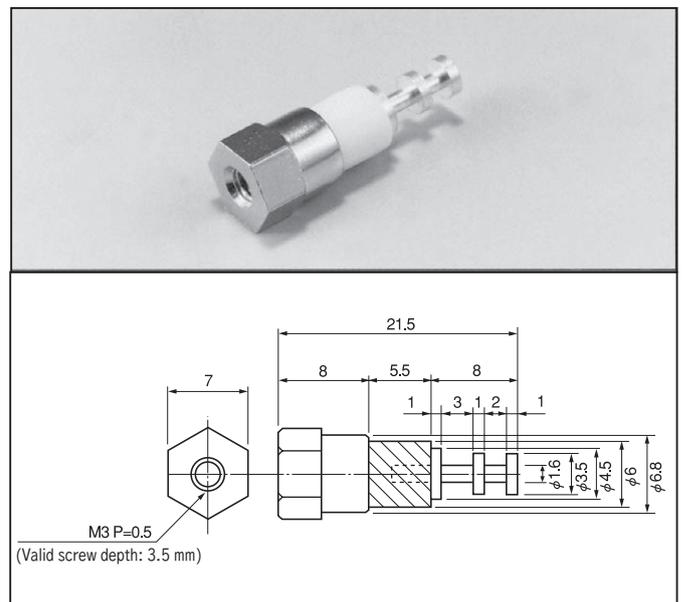

• Part No. : FN-1-1

• Part No. : FN-1-2

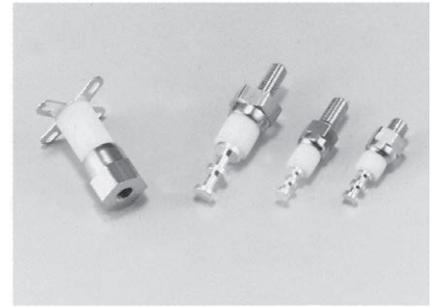

• Part No.: FN-1-3
