

Test point for surface mounting [HK-1 series] (3.2×1.6 type) (1000pcs/pack)

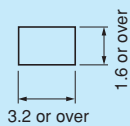

- This is a test point for a PC board surface mounting.
- With the same size as the chip fixed resistor of 1/8W square plate type, the pattern design is easy.
- An oscilloscope probe can be easily hooked in the upper hole.
- This can be also used for pattern heat dissipation.
- Material: Brass
- Finish HK-1-G:Gold plating over nickel base
HK-1-S:Tin plating over nickel base

Part number	Package
HK-1-G	Bulk (1000pcs/pack)
HK-1-S	Bulk (1000pcs/pack)
